Ambulance Remount Proposal

The EMS department currently has one remaining ambulance, out of the 3 oldest, that is suitable for remounting. The age of the patient care module (the box) has many of the newer features that will not require a costly upgrade. Our fleet has two older ambulances that have much older boxes, which would require an extensive retrofit that would reach the cost of a totally new ambulance. We have chosen to remount a unit that has a chassis with frequent mechanical issues. We have planned to replace the current diesel 1-ton chassis with a gasoline 1.5 ton chassis. The gasoline engine and the heavier chassis is expected to reduce maintenance costs.

We have been awarded a \$75,000 grant for the ambulance remount project. The total project cost is \$140,328.44. We have obtained funding from Wharton County ESD #4 for \$32,664.22. We are requesting the remainder from the city of El Campo for \$32,664.22.

Patient care module update	\$74,600.00
Ambulance chassis	\$41,000.00
Remount fee	\$600.00
Ambulance striping	\$2,680.00
Stretcher locking system	\$21,448.44
Total	\$140,328.44
Grant	-\$75,000.00
Wharton County ESD #4 funding	-\$32,664.22
Needed funding	\$32,664.22
